## Declaration of conformity *Nr. 2018-10*

Listed articles are made of construction steel **Q-235**. Tensile strength of the material is 410Mpa.

Compression is ca 30Kn, bending pressure ca 4Kn. Thickness of material is 2,5mm.

Galvanization: minimum 20 microns

1Mpa = 1N/mm<sup>2</sup>

Declaration is valid for:
